PROFILE INFO

Passionate Frontend Developer with 2+ years of experience crafting responsive, user-centric web interfaces. Proficient in HTML, CSS, JavaScript, React, and modern frontend frameworks. Strong eye for design and UX, with a focus on clean, intuitive user experiences. killed in optimizing performance, accessibility, and cross-browser compatibility. Experienced with version control (Git), RESTful APIs, and agile workflows. Adept at building mobile-first, scalable applications using best practices. Collaborative team player with excellent communication and problem-solving skills.

EXPERIENCE

⭕ **JUNIOR FRONTEND DEVOLOPER**   2022 - 2025

A highly motivated junior frontend developer with a strong foundation in modern web technologies and a deep passion for crafting engaging user interfaces. Though not yet employed professionally, I've built a wide range of frontend projects—from responsive websites and interactive javascript apps to single-page applications—demonstrating my ability to turn design concepts into functional, user-friendly experiences.

ACHIVEMENT

- **2022 – 2025**

  Built 15+ frontend projects using React, JavaScript, and Next.js, showcasing strong UI/UX skills and component-based architecture.
